

## The Horizon Retreat

The Horizon Retreat creates a new market for the lodge, classed as an entry level lodge with a high specification which is at home in the countryside or supporting the all year round holiday near the beach as a Beach Chalet. Dressed impressively, it blends sympathetically with its surroundings in both seaside and rural landscapes.

## Product Description

The Horizon Retreat is the most compact in our range of lodges but it can also be completed as a leisure home for static caravan parks. It is finished in a range of materials covering uPVC, Canaxel or Log Lap allowing it to fit the most discerning of tastes. The optional veranda allows it to be used on the smallest of pitches whilst the covered built-in veranda with balustrade saves space and expense making it ready to use once delivered and sited. The luxury one bedroom model gives a hotel room feel where everything is easy to access and use, whilst the 2 bedroom version makes it a family affair. It truly is an all round home for leisure or everyday living.

The model ranges from a large double bedroom through to 2 bedrooms with the bed settee allowing for a pull out bed to incorporate sleeping accommodation for more guests.

- It's cosy and homely but great for holidays and easy living
- It is very cost effective and is really good value for money, with possibilities to be used for rental.
- Stylish because it uses high quality modern interiors.
- Incorporates full insulation, heating, shower room and toilet facilities

## Standard Features

The 2 bedroom Retreat successfully combines a quality homely interior with a structure requiring minimal maintenance.
